Award-winning software design

**Making mobile phones and tablets
accessible for people with sight loss**

Prices correct as of June 2023

What is Synapptic?

Here at Synapptic, we design software that makes it easy for people with sight loss to use Android mobile phones and tablets.

Whether you've never used technology before or struggle with your current device, our award-winning software makes it easy to stay connected and remain independent. Whatever your level of sight loss, Synapptic has been specifically designed for you.

You can buy Synapptic software on its own, which can be installed onto your own Android device. Or you can buy it as part of a phone or tablet package.

How does Synapptic work?

- Intuitive, step-by-step menus guide you through all tasks
- In-built speech, magnification and voice recognition come as standard
- Voice control allows you to select menus, dial numbers, write texts, compose emails and lots more!
- Includes over 30 integrated, easy-to-use features such as text messages, emails, WhatsApp, calendar, address book, camera, web browser, calls, apps, Internet radio, live TV, catch-up TV, BBC iPlayer, free audio books, magnifier, reading machine and much, much more! For a full list of features, please visit our website.

Why choose Synapptic?

We design software specifically for sight loss

We carefully select the best devices

We offer lifetime UK-based help and support

Our experts help you to choose a device

No-quibble money back guarantee

- Ideal for anyone who wants full access to all the features of Synapptic on a compact tablet, or where budget is a priority
- Comes with an 8.7 inch standard-contrast screen, giving a good screen size for a great price.
- 32GB of storage for saving documents, photos and audio books.

Do I need the SIM version of a tablet?

SIM tablets have an extra slot that can accept a SIM card.

Choosing the SIM version of a tablet gives you access to the Internet when away from Wifi and also allows you to make phone calls and send text messages, in addition to all the normal tablet functions!

*Requires a pay-as-you-go or contract SIM card.
See our Call Plans for more details.

Synapptic Software

£249

SYN-SOFT

- Technology to make mobile phones and tablets simple to use when you have sight loss
- Ideal for any level of sight loss

- Extra help and support is **included** for peace of mind and covers services like data transfer from a previous device or installing / transferring Synapptic software to a new device.

Portable Stand

£99

SYN-STAND03

A handy portable stand which can be used with both phones and tablets

- Great for holding your device for prolonged use, like watching a film or just using the menus
- Offers stability if magnifying an object or reading some text (tablets only)
- Folds nearly flat for easy storage.

Bone Conducting Wireless Headphones

£99

SYN-BONE01

Headphones that are worn above the ears. Ideal if you still want awareness of your surroundings or you wear hearing aids

- They create mini vibrations which send sound through the cheekbones, directly to the inner ears
- Excellent sound quality, with a durable and flexible frame.
- Connects to any Bluetooth-enabled device

Large Print Bluetooth Keyboard

£65

SYN-KBD

A slim and compact wireless keyboard, which can be used with any Synaptic phone or tablet

- Use to navigate all menus and type text, instead of using the touch screen
- Comes with high-contrast, large print lettering.
- Available in a range of colours:

Yellow on black	Black on yellow
White on black	Black on white
- Connects to just about any Bluetooth-enabled device!

Synapptic USB Memory Stick Player

£29

SYN-USB-SPKR

An easy-to-use USB memory stick playback speaker

- Specially designed for sight loss with large lettering and high contrast tactile controls
- Light and portable with excellent sound quality and a rechargeable battery
- Ideal for listening to books, magazines and newspapers supplied on memory stick
- Available in two colour schemes: Black/silver or yellow/black.

USB Memory Stick Adaptor

£15

SYN-USB-MSC

High quality USB memory stick adaptor for Synapptic phones and tablets

- Allows you to import and play music, talking newspapers and audio books from a memory stick onto your device.

Protective Cases for phones

£10
Phones

SYN-CASE-P

Wallet-style cases, available in a range of colours

Protective Cases for tablets

£19
Tablets

SYN-CASE-T

Wallet-style protective cases, help prevent accidental scratching or breaking of the touch screen.

Basic Printer A basic wireless printer for Synapptic phones and tablets

£99

SYN-PRINTER-B

- Perfect for occasional printing of letters, photos, emails and notes
- The printer can be fully controlled via 6 tactile buttons on the front, or via the Epson iPrint App, which can be accessed through Synapptic.

Advanced Printer A wireless printer for Synapptic phones and tablets

£149

SYN-PRINTER-A

- Perfect for more regular printing of letters, photos, emails and notes
- The printer can be fully controlled via a small screen on the front of the printer, or via the Epson iPrint App, which can be accessed through Synapptic.
