Independence at your fingertips!

**Mobile phones, tablets, smartwatches and
accessories designed for any level of sight loss**

Prices correct as of January 2026

What is Synapptic?

Here at Synapptic, we design technology that makes it easy for people with sight loss to use Android mobile phones, tablets and smartwatches.

Whether you've never used technology before or struggle with your current device, our award-winning solutions make it easy to stay connected and remain independent. Whatever your level of sight loss, Synapptic has been specifically designed for you.

Synapptic Technology is available across a wide range of devices, including smartwatches, phones, and tablets. For phones and tablets, it is also offered as software only - ready to download to an existing device.

What are the benefits of Synapptic?

- Get started with technology the easy way, whatever your level of sight loss
- The freedom to manage everyday tasks for yourself and remain independent
- Full help and support, so you're never on your own
- Stay connected to the important people in your life
- Information and communication at your fingertips, wherever you are.

Synapptic is a family-run business, with all products designed and developed in the UK

Why choose Synapptic?

We design software specifically for sight loss

We carefully select the best devices

We offer FREE lifetime UK-based help and support

Our experts help you to choose a device

30-Day, no-quibble, money back guarantee

Try Synapptic

- Visit us at one of the exhibitions we attend, for an in-person demonstration
- Visit one of our trusted partners at your local sight loss charity, who will be able to give you an in-person demonstration.
- Contact us for a free 15-day Trial Version of our phone and tablet software, which you can install on any Android phone or tablet
- Visit our website at synapptic.com and try out our online demonstration now, which simulates how Synapptic works on a phone and tablet

Synapptic - for phones & tablets

General features

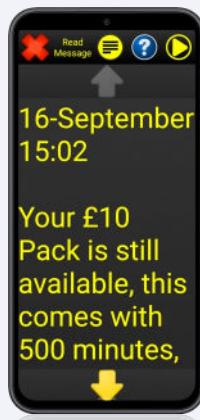

Making phones and tablets accessible for any level of sight loss

- Intuitive, step-by-step menus guide you through all tasks
- In-built speech, magnification and voice recognition come as standard
- Voice control allows you to select menus, dial numbers, write texts, compose emails, ask questions and lots more!
- Fully customisable with high-contrast colour themes, voice options, adjustable text sizes, and menus that you can reorder, add to or simplify.

Communication

Stay connected with family and friends

- Make phone calls effortlessly with simplified, user-friendly screens which are easy to navigate
- Stay connected with friends and family through video calls, for face-to-face communication
- Send and receive text messages and emails with ease. Compose messages using voice recognition or type with the large, intuitive onscreen keyboard. Messages are displayed in large print and can be read aloud for convenience
- Connect with friends and family on WhatsApp or through social media apps like Facebook. Synapptic reads everything on the screen out loud, making communication simple.

Independence

Remain independent and do things your way!

- Ask questions and find information quickly with the Synapptic ChatBot, your personal virtual assistant. Similar to Siri and Alexa, the ChatBot can be operated hands free, with just simple voice commands
- In-built digital magnifier feature enables you to magnify menus, labels, and documents with adjustable zoom, colour contrasts, and freeze-frame options. With the added built-in reading machine feature, it's easy to read out information wherever you are
- Browse the Internet with ease using the accessible web browser. Designed for simplicity, it features large text, high-contrast options, and voice feedback, making it easy to navigate any website
- Use apps seamlessly for banking, shopping, gaming, and much more!

Entertainment

Listen, watch and enjoy

- Listen to FREE audiobooks from RNIB, and even more from Calibre (small membership fee), with easy searching, playback and bookmarking features
- Listen to Internet radio from thousands of local, national and international stations, or thousands of songs through Spotify, opening up the world of music, news, and entertainment
- Watch live Freeview TV or catch up on your favourite shows with iPlayer, all on your device
- Watch, listen, learn, and laugh with YouTube, bringing endless videos, music and entertainment directly to your device.

Basic phones

A17 Phone Package - Our fully-featured budget phone

£379

SYN-P-A17-4G

DIMENSIONS

H: 16.4 cm

W: 7.8 cm

T: 0.8 cm

- Includes Synapptic software and a Samsung Galaxy A17 budget phone
- Ideal for anyone who wants full access to all the features of Synapptic, but where budget is a priority
- Comes with a 6.7 inch standard-contrast screen, giving a good screen size for a great price
- A slower performing phone compared to our mid and premium phone ranges
- Includes a basic 50MP camera and 128GB of storage.

- Gives you the freedom to use Synapptic on extra devices
- Normal price £249 - discounted to just £149 for customers who have previously purchased Synapptic software or a Synapptic phone or tablet package.

Did you know...

Your Synapptic license belongs to you—not your device. Easily transfer it for free* whenever you upgrade or replace your phone or tablet, ensuring you have uninterrupted access and save money.

We can also transfer your phone numbers, addresses, photos, and other important information, making the transition to a new phone or tablet seamless and stress-free!

*Requires an up-to-date Support Plan. Other charges may apply.

NEW! Synapptic Smartwatches

Synapptic Smartwatch V2 LITE

£149

SYN-WATCH01-L

LITE Version

FREE lifetime
software updates!

The Synapptic Smartwatch LITE is the perfect entry-level talking watch, designed for simplicity and accessibility. With clear voice output, large high-contrast text, customisable watch faces, and an intuitive touchscreen, it makes telling the time and setting alarms effortless.

Ideal if you just want a basic smartwatch - without the more advanced features.

For extra features and functionality, take a look at the enhanced Synapptic Smartwatch PLUS.

Large print, high contrast and talking!

- Synapptic smartwatches combine large print, high-contrast numbers and text with a clear talking feature, making it simple to check the time, date and other important information
- Perfect for any level of sight loss, with a choice of male and female voices that can be switched on or off, and a wide selection of bold, high-contrast colour schemes to suit your preference and ensure maximum clarity
- Easy to use! Hear the time with a quick tap, or swipe up and down to switch between features effortlessly.

Make it your own

- Customise your Synapptic watch with a variety of watch faces, including digital and analogue designs specifically created for partially sighted users
- Choose a strap that matches your style with stretchy elastic or soft silicone, all in a variety of colourful options, or classic stainless-steel metal.

£9

SYN-W-STR

The first fully accessible smartwatches designed specifically for sight loss!

PLUS Version

FREE lifetime software updates!

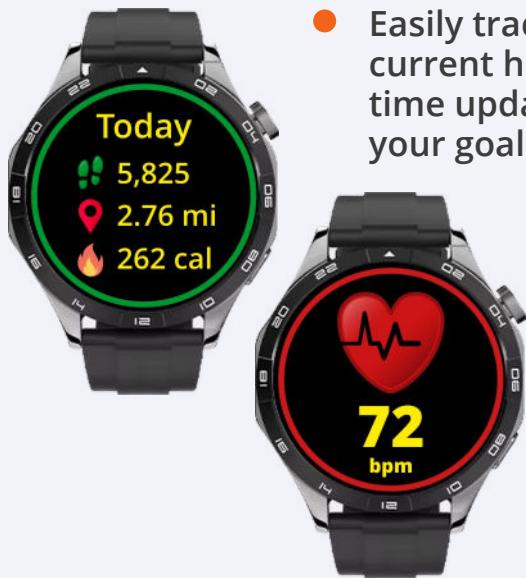

The Synapptic Smartwatch PLUS is our premium, fully-featured and accessible smartwatch. It includes **everything from the LITE version** - like customisation, spoken menus, high-contrast text, an easy-to-use touchscreen, and everyday tools like the alarm and timer, **PLUS** a wide range of advanced features for

- **NEW!** Voice control and ChatBot
- Health and fitness tracking
- Communication
- Independence on the go.

NEW!
Now with
Voice
Control

Monitor your health and fitness

- Easily track your steps, distance covered, calories burned and current heart rate throughout the day. Stay motivated with real-time updates on your activity levels, helping you set and achieve your goals
- Track and review your history, providing valuable insights into your health. Stay informed, whether you're at rest or on the move
- With an easy-to-read display and voice output, you'll always have the information you need to stay on track, whether you're walking, running, or just going about your daily routine.

Voice control, calls, messages, and more

- Talk to your Plus watch to ask questions, send messages, make calls or set timers – all using your voice
- Make and receive calls, and send or receive text messages with contacts saved in your address book
- Quickly record voice memos for shopping lists, reminders, or anything you want to remember
- Set helpful reminders for medication, appointments, or daily routines
- Check the latest weather forecast with a quick tap
- Use the customisable tactile action button to make SOS calls, record voice memos or perform other tasks.

The PLUS features for calls and messaging require a SIM card, along with Wi-Fi or mobile data for weather updates. Compatible with all PAYG and contract SIMs. SIM cards available from just £48 per year - no separate phone needed. Visit www.synapptic.com for details.

USB Memory Stick Player V3

£49

Latest Model

SYN-USB-SPK3

Up to **20** hours playback on a single charge!

An easy-to-use, high-contrast, tactile **USB memory stick & Bluetooth speaker**

- Specially designed for sight loss, with large lettering and chunky, high-contrast tactile controls
- An extra-powerful, portable, high-quality speaker with both memory stick and Bluetooth playback, and a long-lasting rechargeable battery
- Ideal for listening to books, magazines and newspapers supplied on memory stick, or amplifying a phone or tablet.

The new V3 speaker now comes with...

- Headphone socket for private listening
- Millisecond-accurate bookmarking so that you never lose your place
- Fast forward and rewind functions to allow quick navigation through any track
- Easy switching between books, for memory sticks containing multiple books
- Extra loud volume for easy listening!

Bulk discounts are available for Talking Newspapers and other similar organisations. Please contact us for details.

Advanced Printer A wireless printer for Synapptic phones and tablets

£99

SYN-PRINTER-A

- Perfect for more regular printing of letters, photos, emails and notes
- The printer can be fully controlled via a small screen on the front of the printer, or via the Epson iPrint App in Synapptic.

Basic Printer A basic wireless printer for Synapptic phones and tablets

£69

SYN-PRINTER-B

- Perfect for occasional printing of letters, photos, emails and notes
- The printer can be fully controlled via 6 tactile buttons on the front, or via the Epson iPrint App, which can be accessed through Synapptic.

Portable Stand

£99

SYN-STAND03

A handy portable stand which can be used with both phones and tablets

- Great for holding your device for prolonged use, like watching a film or just using the menus
- Offers stability if magnifying an object or reading some text (tablets only)
- Folds nearly flat for easy storage.

Bone Conducting Wireless Headphones

£99

SYN-BONE01

Headphones that are worn above the ears. Ideal if you still want awareness of your surroundings or you wear hearing aids

- They create mini vibrations which send sound through the cheekbones, directly to the inner ears
- Excellent sound quality, with a durable and flexible frame
- Connects to any Bluetooth-enabled device.

Large Print Bluetooth Keyboard

£65

SYN-KBD

A slim and compact wireless keyboard, which can be used with any Synapptic phone or tablet

- Use to navigate all menus and type text, instead of using the touch screen
- Comes with high-contrast, large print lettering
- Available in a range of colours:

Yellow on black	Black on yellow
White on black	Black on white
- Connects to just about any Bluetooth-enabled device!

Note: All new phones, tablets and accessories come with a free charging cable!

Protective Cases for phones

£10
Phones

SYN-CASE-P

Wallet-style cases, available in a range of colours

Protective Cases for tablets

£19
Tablets

SYN-CASE-T

Wallet-style protective cases, to help prevent accidental scratching or breaking of the touch screen.

How we support you

1

Free lifetime technical support

Whenever you buy any Synapptic product, you're entitled to free lifetime technical support. This means that you can call up one of our Technical Support Advisors and they will be able to answer your questions or resolve any technical issue you may be having. We can even remotely access your device to diagnose and fix problems quickly, getting you back up and running with minimal hassle.

2

Free telephone training

For any Synapptic phone or tablet purchased, you're entitled to one hour of free telephone training. You can tailor the training to suit your requirements.

3

Synapptic Support Plans for phones and tablets

Our Support Plans cover you to receive all updates to the software, which includes instant access to any new features and security updates. The plans also cover chargeable help, which includes services such as data transfer from a previous device and installing or transferring Synapptic software to a new device.

Support Plans For phones & tablets

Support Plans give you instant access to new Synapptic features, security updates and extra support when you need it.

£99

Basic Plan

- 1 Year of software updates to keep your device working at its best
- Instant access to new features and security updates
- Extra help and support is charged at a **reduced** rate of £35 per incident for services like data transfer from a previous device or installing / transferring Synapptic software to a new device.

£129

Complete Plan

- 1 Year of software updates to keep your device working at its best
- Instant access to new features and security updates
- Extra help and support is **included** for peace of mind and covers services like data transfer from a previous device or installing / transferring Synapptic software to a new device.

No matter your plan (or even if you have no plan), day-to-day help and support is always **FREE** through our UK technical support helpline

What you get with every order...

- ✓ All devices are fully set up and ready to use out-of-the-box
- ✓ Two-year Samsung hardware warranty on all phones & tablets
- ✓ One-year warranty on all accessories and smartwatches
- ✓ 30-day money-back guarantee
- ✓ Free UK-based lifetime technical support on all products
- ✓ One hour of free telephone training for phones & tablets
- ✓ One-year free Basic Support Plan for phones & tablets
